

Exceptional Care for Your Child....

Harmony for You

Harmony Pediatrics provides highly skilled clinicians for children in Western Pennsylvania who prefer to be at home when medical assistance is required. We work closely with you and your child, as well as family members, physicians and others in your child's individual healthcare network to create a patient-centered plan of care that achieves medical, safety, emotional and daily living needs in the comfort and convenience of your home.

Each patient's medical requirements are unique, so a multi-disciplinary team of professionals may consist of:

- RN Director of Patient Services
- Pediatric Registered Professional Nurse
- Licensed Practical Nurse
- Home Health Aide or Personal Care Aide
- Certified Nursing Assistant
- Occupational, Physical or Speech Therapists
- Patient Care Advocate
- Social Worker

Our professionals take the time to understand the mind, body and personality of your child with unsurpassed skill and compassion.

Financial Piece of Mind

Our trained patient advocates provide you one point of contact. The advocates listen to your concerns, answer your questions and ensure that you receive the affordable care you deserve by working directly with your insurance carrier. We provide **complimentary** consultation, annual, and post-hospitalization assessments. Methods of payment may include Private Commercial Insurance, Waiver Programs and Medicaid. Affordable Private Pay options are available for services not covered by insurance.

Private Duty

We help each family find a solution that supports bringing their child home to familiar, loving surroundings regardless of medical complexity.

These skilled professionals provide the vital care to ensure a smooth transition home for pediatric patients across a range of diagnoses and services including, but not limited to:

- Respiratory Syndromes and Dysfunctions
- Gastrointestinal Disorders
- Cardiovascular Anomalies
- Hematologic and Immunologic Disorders
- Endocrine Disorders (including insulin pumps)
- Neuromuscular Disorders
- Congenital Anomalies
- Spinal Cord Injuries
- Anoxic and Traumatic Brain Injuries
- Neoplastic Diseases
- Premature Birth
- Tracheotomies
- Mechanical Ventilation
- Feeding Disorders (Cleft Lip/Palate, NGT/GT/JT)
- Colostomies
- Ileostomies
- Peritoneal Dialysis
- Infusion Therapies
- Rehabilitation Therapy
- Palliative Care

Intermittent Visits

We provide one or more intermittent visits to the patient's home. The purpose of these visits includes evaluating care, providing teaching to the patient or family, or assessing a patient.

Individualized School Support

We can also care for your child during the school day. Our registered nurses, licensed practical nurses, and home health aides specialize in caring for children in the school setting, including those needing complex, high-tech nursing care.

Depending on your child's needs, school-related services can include:

- Daily transportation assistance on the school bus, to and from school
- One-on-one care throughout the school day
- Ongoing clinical supervision
- Facilitating classroom tasks, such as turning pages and working on a computer
- Working with the school to support your child's Individualized Education Program (IEP)
- Assisting with personal care tasks, such as toileting and cutting up food
- Support on school trips

Assistive Care

We provide experienced, knowledgeable, compassionate home health aides who assist with non-medical activities of daily living, both at home and at school.

Our wide variety of assistive care services includes:

- Dressing and grooming
- Bathing and toileting
- Walking, moving, and transferring (including safe use of wheelchairs)
- Exercise and playing
- Meal preparation, help with eating, and nutritious food selection
- Traveling to and from school and on field trips
- Care in the classroom
