

Financial Piece of Mind

Our trained patient advocates provide you one point of contact. The advocates listen to your concerns, answer your questions and ensure that you receive the affordable care you deserve by working directly with your insurance carrier. We provide *complimentary* consultation, annual, and post-hospitalization assessments. Methods of payment may include Private Commercial Insurance, Long-Term Care Insurance, Workers' Compensation, Waiver Programs, Medicare, and Medicaid. Affordable Private Pay options are available for services not covered by insurance.

Find Harmony in your home

Harmony Home Healthcare is a program created for patients in Western Pennsylvania who prefer **in-home care** when they require medical assistance. We work with you, your family, physicians and others in your individual healthcare network to create a **patient-centered plan of care** that achieves your medical, safety and daily living needs in the comfort and convenience of your home.

Each patient's medical requirements are unique, so a multi-disciplinary team of professionals may consist of:

- RN Director of Patient Services
- Registered Professional Nurse
- Licensed Practical Nurse
- Home Health Aide or Personal Care Aide
- Certified Nursing Assistant
- Occupational, Physical or Speech Therapists
- Patient Care Advocate
- Social Worker

These skilled professionals provide a variety of homecare services for adults, including:

- Skilled Nursing Care
- Wound Care
- Post-Operative Care
- Pain Management
- Infusion Therapy
- Enteral Nutrition Therapy
- Rehabilitation Therapy
- Palliative Care
- Medication Management
- Dietician
- Mental Health
- Home health aide assistance with day-to-day activities including bathing, dressing, meal planning and preparation, laundry, shopping and housekeeping
- Companionship for those individuals that have medical/safety issues preventing them from remaining home alone
- Scheduling and transportation to doctor appointments

We tailor your *Care*

Continuous Home Care

Long-Term Home Healthcare is meant to enable chronically ill or disabled patients the opportunity to receive the necessary medical care in their home in lieu of a nursing facility. In the comfort of home, care is administered and coordinated under the direction of the patient's physician.

Rehabilitation Therapy

Physical, occupational, and speech therapists play an integral role in the health of patients recovering from various injuries, surgeries, neurological disorders and other medical matters. Many patients prefer in-home rehabilitation services, leaving behind the institutional or clinical environment of a rehabilitation or nursing facility.

Private Care

In certain circumstances when in-home service insurance benefits become exhausted or are not available, many individuals choose to pay for services out of pocket or privately. Our professional patient advocates will meet with you, your family, other responsible individuals, and your physician to develop a quality care plan that harmonizes with your lifestyle.

Harmony Home Healthcare seeks to understand the uniqueness of the mind, body and soul of each patient.

We tailor your care plan around the circumstances surrounding your requirements for care, including:

Post-Hospitalization Care

Harmony provides compassionate and professional short-term nursing and rehabilitation services in the home. Caring for patients from those in need of post-operative wound care to patients requiring occupational therapy due to heart complications or a stroke, Harmony provides the assistance necessary in the home after hospital discharge.
